

SPW

SPECIAL WORDING OPTION

CUSTOM WORDING OR GRAPHIC IMAGE

BLACK OUT & WHITE OUT

CUSTOM COLOURS

The SPW special wording option can be used in a variety of applications. From ADA compliant signs to corporate logos, nearly any custom wording or graphic can be applied to an AimLite exit sign series.

FEATURES & SPECIFICATIONS

OPTIONS

- Special wording signs can be combined with additional options as applications require. The AC Flasher option will cause the sign to illuminate and then darken at a rate of about once per second. The black out option adds a opaque, dark panel over the special wording. The panel masks the special wording until the sign is illuminated, thereby preventing false notification of the sign's message. Similarly, the white out option places a white, opaque panel over the lettering to achieve the same result. All of these options are typically added to normally off signs only.

LIGHT SOURCE

- Typical special wording signs utilize either an incandescent or LED light source. Since LED exits are either red or green LED based, special wording signs specified for LED must use either a red or green lettering/graphic. Incandescent special wording signs can utilize any combination of colours, contact AimLite with your specifications.

OVERVIEW

- The following special wording signs are available to replace any standard Exit sign legend. Please add the suffix OP + the chosen sign number to the catalogue number. Contact your AimLite representative for any other special wording requirement.

Data is based upon tests performed in a controlled environment. Actual performance can vary depending on operating conditions. All products are subject to change or may be discontinued any time without notice.

ADA SIGNAGE

Signs are available in many colours, please specify when ordering.

No. DP5 - Area of Rescue assistance can be supplied with a Red legend and Blue wheelchair symbol, specify No. DP5RBW.

LED EXIT SIGNAGE

The special signage legends are available as either Red (RL) or Green (GL) stencil legends on opaque background colour either White (W) or Black (B). The letter colour and background colour should be added as a suffix to the legend number as follows:

LETTERS	WHITE BACKGROUND	BLACK BACKGROUND
RED	OP_RLW	OP_RLB
GREEN	OP_GLW	OP_GLB

Add legend number, color and background color to catalogue number when ordering.
